Dam Name:

Price: \$

Sire Name:

Buyer and Seller agree to the following conditions of sale:

Congratulations on the purchase of your new puppy from Pawsh Bernedoodles!

We've made every effort to provide you with a happy and healthy puppy, and are confident you

have many, many happy years ahead with your new bundle of joy. Your puppy will be vaccinated

and dewormed as scheduled. You'll be given health records to share with your veterinarian. Here

are some things to note:

1. This contract is for the original buyer that purchased a puppy from Pawsh Bernedoodles.

This health guarantee is void if the puppy has not had a secondary vet exam within 72 hours after

purchasing, proper veterinary care, adequate diet or exercise, or has been over- or undervaccinated. We require a copy of this vet examination/proof of vet visit. In the unlikely event your

puppy is found to have life-threatening hereditary congenital defect at this exam, we will replace

the puppy with another one of equal value.

2. Pawsh Bernedoodles guarantees the puppy to be in good health at the time of adoption.

Puppy is guaranteed for 1 year from date of birth against any serious health issues. If, within this

time period, a life-threatening congenital defect is found, a replacement puppy will be given of

equal value. We may request the return of the puppy before any replacement is given;

if so, the

puppy must be returned to us with the registration papers within 24 hours at no expense to the

breeder. The puppy must be accompanied by written veterinarian reports from two nonassociated veterinarians. Replacement will be subject to availability (within 6 months). If a

replacement puppy is provided under this contract, it shall be of equal value and provided from a

future available litter. Breeder does not guarantee immediate availability. This health guarantee is

limited to one replacement puppy only. No cash refunds or partial refunds will be given.

3. If, in the unlikely event the puppy dies within this 1-year time period due to a congenital

defect, a statement from the veterinarian is required before any action will be taken by the

breeder. If the cause is unknown, an autopsy will be required.

4. A diagnosis of coccidiosis or Giardia, or parasites such as these do not render a puppy unhealthy.

5. This guarantee does not include non-life-threatening or temporary disorders such as uneven bites, undescended testicles, Demodex mange, injuries, inguinal or umbilical hernias,

fleas, ticks or ear mites, kennel cough, intestinal worms and parasites, scabies, Eye Entropion,

Cherry Eye and allergies.

6. Breeder is not responsible for Parvo, Distemper or Corona Virus after 48 hours of the sale;

these diseases are highly contagious and can be contacted immediately after leaving the breeder.

7. If your puppy is diagnosed with hip or elbow dysplasia before 2 years of age and it is determined by two non-associated veterinarians (buyer's veterinarian, and veterinarian of

Pawsh's choice), to be genetic and not caused by abuse, injury, trauma, neglect, obesity

or any

other non-hereditary factor, breeder will provide a replacement puppy of equal value in exchange

for puppy. PennHip report and letter from

veterinarian is required stating puppy has received proper checkups.

8. Buyer agrees to ensure puppy's health by providing good food, housing and good medical care

to keep health guarantee in effect. Responsible owner/buyers will provide puppy with routine

preventive care and all immunizations and exams by licensed veterinarian.

9. If the buyer is unable to keep the puppy, the buyer must notify Pawsh Bernedoodles so they

are aware. Pawsh Bernedoodles will help the buyer find a new approved home for the puppy. The

puppy may not be sold, transferred, or surrendered to a shelter or rescue. Breeder must be

notified first and reserves the right of first refusal to take the puppy back or assist in rehoming.

9. Puppy is sold as a companion animal only unless otherwise stated in writing. Buyer agrees

not to breed the puppy

10. Breeder will not be responsible for any veterinary expenses, or any other expenses incurred by the buyer.

11. The breeder is not responsible if puppy size or temperament is not as expected, nor changes in coat or eye color.

12. Bernedoodles are inherently a mixed breed, not purebred, therefore Pawsh's puppies

may carry DNA from distant ancestors or DNA from dogs of a different breed.

13. Buyer is aware that puppies can have certain ailments upon coming home. UTI'S, parasites, ear infections, and allergy issues are all common. While we routinely deworm/vaccinate

and monitor for potential issues, sometimes the stress of leaving the breeder causes issues to

temporarily flare up

14. Once the puppy leaves the breeder's care, buyer assumes all responsibility for the puppy's health, well-being, and veterinary care, except as specifically outlined in this health

guarantee.

15. Buyer acknowledges that payments made via Venmo, Zelle, cashier's check, or other non-credit methods are final. Buyer agrees not to dispute, reverse, or attempt to recover payment

through any payment platform, bank or financial institution.

16 If terms and conditions are not fulfilled this contract is null and void. By signing below buyer acknowledges receipt of a copy of this agreement.

17. This written agreement constitutes the entire agreement between buyer and breeder. No

verbal statements, representations, or promises outside of this contract are valid or enforceable.

18. This contract shall be governed by and construed in accordance with the laws of the state of Indiana.
